

BULL STARTER 12/24 V

The Banner booster for professionals!

With its two AGM high-current batteries, the Bull Starter 12/24V provides reliable starting assistance. An on-off switch, reverse polarity safeguard and a tough polypropylene casing with bottom protection provide safety for professional applications.

FEATURES

- Two exchangeable Energys/Hawker high-current AGM batteries
- Reverse polarity safeguard
- On-off and voltage selection switches
- Including 2A charger
- Digital display for voltage, battery charging status and vehicle charging voltage
- 12/24V socket for connection to external devices
- Polypropylene casing with ventilation slits and bottom protection for increased safety
- Ultra-flexible cable with exchangeable clips fitted with copper inserts
- Storage drawer for the clips and cable box
- Output protected against short circuits

TECHNICAL DATA

Model: Bull Starter 12/24 V
Art. No.: 1220005310
Voltage: 12 and 24V
Max. peak current: 3,200A / 1,600A
Starting current: 1,360A / 680A
Capacity: 12V, 16Ah
Weight: 17.3kg
Cable: copper, \varnothing 33.61 mm², length: 1.4m
Dimensions: (H x W x D) 38 x 35.6 x 19.6cm
