

intact Start-Stop-Power EFB Truck

Closed EFB battery | vibration-proof according to V4 standard | filled and charged | maintenance-free

Art.No.

EFB230SS

| | |
|---------------------|----------------------------|
| Volt | 12V |
| Capacity | 235 Ah (c20) |
| CCR -18°C (EN) | 1200 A (EN) |
| Electrolyte | diluted sulphuric acid |
| Electrolyte density | 1,28 +/- 0,01 Kg/l (25° C) |
| Size (LxWxH) | 518 x 276 x 242 mm |
| Weight | 60,7 kg |
| Pos. of Terminal | 3 |
| Terminal | 1 |
| Base plate | - |

Usage

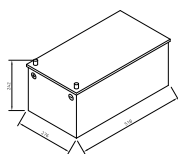

More than just starting.

The ideal choice for modern commercial vehicles that require a reliable and powerful energy source. Specially developed for vehicles with start-stop systems and those with increased energy requirements, these batteries offer high cycle stability, fast charging behavior and an excellent price-performance ratio. Our recommendation if your vehicle has comfort functions and additional installations that go beyond normal power consumption.

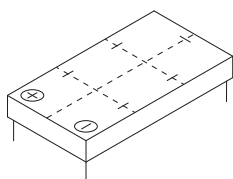

- » **Very good starting behavior** even with a low state of charge.
- » **Higher cycle stability and cold start performance than standard starter battery** in the same box size. Therefore longer life expectancy.
- » **Extremely good recharging behavior** in the partial charge range.
- » **Closed, maintenance-free battery** with lead-calcium-tin grids.
- » **Double lid with central degassing** and backfire protection. Leak-proof.
