

TECHNICAL DATA SHEET

Battery model Gel 25

Intact Gel-Power

Nominal voltage	12 volts
Capacity (5H at 25°C)	22 Ah
Capacity (20H at 25°C)	25 Ah
Capacity (100H at 25°C)	27 Ah
Approx weight "filled and charged"	9,7 kg
Electrolyte	diluted sulphuric acid fixed in gel
Electrolyte density	1,28 +/- 0,01 Kg/l (25°C)
Design	grey PP box, grey cover, vent plug
Base hold-downs	B00
Dimensions	167 x 176 x 126 mm (length x width x height)
Layout	1
Technology	lead/gel technology
Separator	Microporous pocket separator
Terminal type	G-M5
Degassing	maintenance-free
Applications	Motorcycle, boats, leisure and sport vehicle, rehab
Cycle stability	yes, 500 cycles according to IEC 254-1
Guarantee	starter use: 24 months cyclic use: 12 months
Delivery state	flooded and charged
